EXPERT
ACCOUNTING

Why Expert Accounting?

In a word: time, the most valuable commodity of all.

Many retailers find the whole process of financial reporting frustrating, but it's too important to ignore. Perhaps the biggest challenge is finding qualified, dependable personnel, followed by training - a time consuming process in itself - only to lose them and start the process all over again. It's a hugely inefficient cycle, not to mention stressful and prone to costly errors.

That's where we come in. Expert Accounting Service is a turnkey financial reporting solution. We have a team of seasoned retail professionals who will work with you to achieve your goals. **And, in today's rapidly evolving retail environment, we can identify the key issues you need to address so that your business can adapt and successfully navigate the future.**

Affordable Solution

We provide the services of skilled professionals at competitive, affordable rates, which ultimately translates into long-term cost savings. And we are always available when you need us. Finished are the complications brought on by inaccurate, untimely financial reporting, holidays, sick days, absenteeism, maternity leave and training.

Our financial management program has enabled our clients to increase profitability on average by 2%. For a store generating \$2 million in annual sales that translates into \$40,000 of additional profits. Contact us to discuss how Expert Accounting Service can make a difference in your operation.

WE HAVE A TEAM OF
SEASONED RETAIL PROFESSIONALS
WHO WILL WORK WITH YOU
TO ACHIEVE YOUR GOALS.

What Other Value Can **Expert Accounting Service** Offer To My Business?

Unfortunately, many retailers suffer from poor financial management which in most cases is the direct result of poor financial reporting. Owner operators are forced to wear many hats and too often it's the financial reporting that is neglected. **Expert Accounting Service solves this problem by providing owners with timely, accurate financial reporting and important metrics, as well as comparisons to Key Performance Indicators.** This gives you the ability to make important decisions within your business based on sound financial reporting. That's a game-changer that can allow your business to reach its true profit potential.

We listen!

Without accurate, timely financial reporting, you're operating your business in the dark. The Expert Accounting Service gives you the information you absolutely must have for making important decisions about your business. It also buys you that most valuable commodity, time, so that you can focus on other key areas. **Our mission is to help our clients obtain the important financial information they need, the skills to become more efficient and the capability to optimize their success in today's dynamic retail environment.**
